

Mobile Solutions for Permit Parking Enforcement

Colibri Park

Colibri Park is the cost-effective desktop and mobile solution to manage permit parking and ticketing on campus, leveraging Apple® iOS and the FileMaker® platform for superior mobility and security.

Academic, medical, and corporate campuses need to support parking for hundreds to thousands of vehicles every day. Campus security needs to identify, document, and process parking infractions quickly and efficiently.

Using state-of-the-art technology, campus security can enforce parking regulations simply and effectively, maintain safety and security, and generate additional revenue.

Features & Functionality

Equipped with Colibri Park on an iPad®, campus security officers can:

- ✎ Scan a vehicle's permit tag and view permit information.
- ✎ Take pictures and video of a parking infraction.
- ✎ Print a windshield ticket using a handheld mobile printer.
- ✎ Immediately email the ticket to the vehicle's owner.
- ✎ Upload batches of tickets to the Colibri Park desktop.
- ✎ Eliminate manual data entry.

Using Colibri Park for desktop, your public safety department can:

- ✎ Create and manage multiple parking permits per holder.
- ✎ Suspend or cancel permits and create temporary permits
- ✎ Manage tickets and payments.
- ✎ Notify permit holders automatically of new tickets via email.
- ✎ Specify grace periods and holidays for ticket payment.
- ✎ Manage appeals and generate resolution letters.
- ✎ Generate a range of administrative reports.

Solution Integration

Colibri Park can be integrated optionally with Ellucian® Banner® and other student information or ERP systems that manage campus CRM and accounting, security and campus activities.

Colibri Park allows administrators to exchange and update ticket and payment information, generate accounts for permit holders and owners as necessary and tie outstanding ticket balances to overall student or employee accounts.
